

Privacy Policy for Safe Auto-Refresh

Last updated: August 22, 2026

1. Overview Safe Auto-Refresh is committed to protecting your privacy. This extension operates entirely within your local browser environment and does not collect, track, or transmit your personal data to external servers.

2. Data Collection and Usage

- **Local Storage:** The extension uses `chrome.storage.local` exclusively to store user settings, active tab refresh intervals, and local counter data. This data never leaves your device.
- **Permissions:**
 - `storage`: Used to save timer preferences locally.
 - `alarms`: Used to trigger scheduled tab reloads in the background.
 - `tabs`: Used solely to re-execute page reloads on the tabs you specify.
 - `identity` & `contextMenus`: Used to manage payment verification and right-click shortcuts.

3. Third-Party Services Payments for premium upgrades are processed securely via **ExtensionPay**. ExtensionPay handles checkout authentication independently. We do not store or collect financial data, credit card information, or passwords.

4. Changes to This Policy We may update this Privacy Policy from time to time. Any changes will be reflected on this page with an updated revision date.

5. Contact If you have any questions regarding this privacy policy, you can contact us at: cencon.as@gmail.com.
