

Title Ethics and legal dimensions of Ai and data science... in practice

15 ore

abstract:

The course introduces the candidates to the main ethics and legal issues related to AI design, development, and deployment (including generative AI and foundational models) under the legal and ethical framework of the European Union, with a comparison with other relevant legal systems. In this general context, it will discuss pragmatically among other documents the Assessment List for Trustworthy Artificial Intelligence (ALTAI) for self-assessment along with the Horizon Europe guidelines on Ethics by Design and Ethics of Use Approaches for Artificial Intelligence and the impact of LLMs and foundational models in general

Time table

Jan 24, from 14.00-16.30 Aula 5, Sede Centrale and online
