

# THE SYNERGY PROJECT

## July Mission of the Month

*(Continued....)*

In some ways, homeless youth have a tougher time than adults, because they aren't allowed in programs like the code blue cold weather shelters. They may also be less likely to seek help because, as a youth, they may lose control over their own situation.

The money donated over the years has been used for supplies such as tents, sleeping bags, and hand warmers. Sometimes it is used to provide gas for their cars, food, supplies, and laundry as needed.

We have seen Woody at DUMC for many years, showing up with his jeep and trailer, which provide shower facilities. Obviously, he connects with these youth and has compassion for them. Please consider supporting this worthwhile mission.

Best Regards,  
Randy Hume – Outreach
