

**[clock ticking, heel tapping]**

Fucking finally! God, I was worried you were going to be asleep forever. Welcome to your new home puppy! I know it might take some time getting used to, especially with the additions I made to you while you were knocked out, but they are for your own protection. After all, I didn't want you to freak out and hurt yourself. I'm only looking out for your best interest. I have placed some adorable little mittens on you that render your hands to be practically useless and they have these fun little hooks I was able to attach to the bed so that your arms would be spread out and I would have full access to you. Of course you are naked but I'm sure you already felt that. I left the room a little cold so that I would be able to warm you up myself! I figured for your first day in your new home, you should take it easy. Tomorrow, I'll teach you how you are going to be moving around from now on but you won't be moving around today hence the chains around your ankle as well. Having you laid out like this, on your back, spread eagle, not a single part of you hidden from me, it's a very good look for you pup. How are you feeling?

...That is to be expected. After all this is a new environment. But you have to understand, I did this for your own good. For your own protection. You clearly don't know what is best for you. You kept denying me. You kept denying yourself happiness. What a silly thing for you to do puppy. But it's okay now because I'm here. I'm going to teach you what I expect from you. Every day I am going to add another rule to the list and by the end of the week you should have learned them all. If you are well behaved and remember all the rules, I might even have a reward for you at the end of the week. I know how important it is to praise a dog when they are good. Positive reinforcement always works better than negative I have found. I really don't want to have to punish you but if you are a naughty pup and act out or disobey me you will force my hand. You don't want to do that, do you?

...No, you don't. Because you are a good puppy for me. Your first rule is to always ask permission before you do anything. That's not hard, right? Especially considering the predicament you are in right now. **[chuckle]** It's not like your hands would be able to do anything anyway. Restrained as they are, forced to be paws. And your legs are only good for being spread apart today. If you want food you are going to ask "Mistress may I have food". If you are thirsty you are to ask "Mistress may I have a drink." so on and so forth. You are not to do anything on your own. You can't do anything that a human would do. You are a tiny little puppy that needs an owner to train and guide you. If you get horny you are to say "Mistress, puppy needs you", understand?

....Awww aren't you the cutest. You think you aren't going to get turned on by me or by this situation. That's okay. A stubborn pup is always more fun to train. I'm going to enjoy fucking that out of you. Of course I'm going to have to teach you what is expected of you. From eating pussy and ass to being pegged. You are going to be well versed in it all sweetheart. And you are going to love every second of it. Whether you have a dildo inside you while I sit on your face or I have you tied up on the fucking machine with a gag in so I can watch you while I do work. You are going to be trained to take it all with a smile on your face. In fact, I know that you are going to beg for it by the time you finish your training. But I don't want to get ahead of myself. After all, this is your first day as a pet. You need to get used to asking me for permission. Let me take care of you, sweetheart. It's not so bad being a pet. You'll see.

**[kiss throughout this scene]** You don't know how long I've been waiting to do that. I fantasized about kissing your lips the entire time we were apart. I'm so glad I never have to go that long without getting a kiss from my puppy again...I thought about how good you would feel underneath me but actually feeling it, in reality, it is so much better than I ever imagined...It feels good, right? It's okay puppy. Just relax. Enjoy it. In fact, if you want another kiss I want to hear you ask for it. Say "Mistress, I want a kiss"...Good puppy! You are so smart, such a quick learner. How could I deny such a well behaved pup a kiss when they ask so politely?...Shhhh let Mistress use you however she wants. In fact, why don't you call me Mommy instead?...My puppy likes that, huh? I had a feeling you might. Remember, I've seen the porn you enjoy. I had an inkling that making you ask permission for everything and calling me mommy would get you going...

Do you feel that wet spot on your thigh puppy? That's from me. Do you see what you do to me? You drive me crazy. I'm so glad I don't have to ask permission to play with my puppy. See, I can play with you all I want because I know what is best for you. That doesn't mean I'm always going to give it to you. That takes away the fun. You have to earn it. I know exactly what my puppy needs and how to torture them. I'm going to make you absolutely desperate for me and I'll only fuck you once you beg me. You can act defiant but I will break you. Eventually you are going to need me to fuck you puppy and I am more than willing to give you it. I can already see that I'm starting to have an effect on you. Not that I can blame you. We have chemistry. We were made for each other. I love you. There is no denying that. And you can deny you have any feelings for me all you want but look at how your body is reacting to my touch. You are restrained in puppy gear at my house and your body is wanting attention from me.

**[between kisses]** It would be so easy for me to reach down between your already spread legs and to give you some relief. I can feel how turned on you are. How badly you need mommy. Why don't you beg for it sweetheart? If you don't beg for it, I'll just have to use your thigh as a way to get off. It would be such a shame for me to use my puppy like a fuck doll and not even give them any amount of pleasure but alas, it seems that is what you want. Despite how good I can make you feel, how much you are enjoying this, your brain is still telling you no. That's okay. I won't do anything without your consent. I'll just have to break you down more. Little by little, day by day, until you are mine completely. Using your body as my personal toy, being greedy and taking all the pleasure I want from you and there is nothing you can do about it. Well, there is. All you have to do is ask permission. Say "Mistress, please touch me" or "Mommy, your puppy needs you." Either of those will work for me.

Fine, deny yourself those carnal urges. If you don't want to feel good, then you don't have to. Just remember I gave you the option. So now that I'm grinding against your leg, riding you like this, and making myself feel so fucking good, I don't want to hear you complaining or changing your mind. You made up your mind puppy. Let mommy have her fun now. And if you try to deny me my right as your fucking owner I'll make sure to beat your ass bloody and then tie you back down in this position so you are forced to feel and think about the mistake you made by telling me no. You're going to be good for me, right?

That's my sweet pup. **[improv till orgasm]**

I feel so much better! Nothing like an orgasm to make everything feel better. **[kiss]** Oh look at that. You've made a mess. I can just take some on my fingers and put it up to your lips. Taste yourself puppy. Good. This is how badly you want me, yet you are denying yourself. You didn't ask permission, you didn't beg. Now you are going to be left tied up, horny and helpless. It's a shame. I do want to get you off. I want to help. I want to make you feel good, my pet. But I can't do that without your permission. So I'm going to speed the process up a bit. See this red vibrator? I'm going to lube it up and put it inside your needy little hole. I know. I thought my fingers or tongue would be in there before a toy but you are not behaving how I want you to. I'm going to leave this room and come back later. I have the remote control and the speed will be changing randomly. Have fun trying not to cum. Let's see if your attitude is better once you have been edged. And you better not cum. I'll know. I have cameras in here. **[kiss]** Have fun puppy. **[laughing, walking, door open close and lock, vibrator noise, fade to black]**
