

**JCET**  
*The Joint Center for  
Earth Systems Technology*

May 30, 2017

Applications have been reviewed for the JCET Graduate Student Fellowship for 2017-18. Five applications were received. Based upon the recommendations of the selection committee, Mr. Anin Puthukkudy has been chosen to be the JCET Graduate Fellow for the 2017-18 academic year. Mr. Puthukkudy is working with JCET Faculty member Dr. Vanderlei Martins in the Physics Department. Mr. Puthukkudy's project is entitled "Microphysical Properties of Volcanic Ash." On behalf of JCET, I would like to extend congratulations to Mr. Puthukkudy on joining the group of JCET Graduate Fellows.

JCET would like to extend thanks to the members of the selection committee for their time and energy in reviewing the applications: Andrew Tangborn (JCET/Math-Stat), Christopher Shuman (JCET/GES) and Tinoosh Mohsenin (CSEE, Advisor of the 2016-17 JCET Graduate Fellow).

We wish all of the applicants the best success in their research.

Sincerely,

Dr. Susan Hoban  
JCET Associate Director for Academics
