

Sword :

Free version:

A brand new looking sword, often carried by soldiers. But why was it in the haystack? It looks like someone left it behind when they were resting here.

guard drop:

Items of the winner. Too bad all they have left is their bonus weapon.

Dagger :

Aristocrat drop (dialog capture, or defeat the rich?)

It's a small dagger, set with precious stones. It doesn't look like much of an attack, but it would make a lot of money if you sold it.
