

## Lindsey Wilson

Lindsey Wilson is a Northville resident of 9 years seeking his first term on the Northville Board of Education. Lindsey and his wife, Julie, are raising four kids together, with three in the Northville School District: Waverly, a sophomore and swimmer at Northville High School; Casey, a sixth grader at Hillside Middle School; and Nico, a fourth grader at Amerman Elementary School. Their daughter Sofie is a freshman and diver at Mercy High School

Mr. Wilson has served as a Board Member and Secretary of the Amerman Dad's Club and was a head coach and assistant coach for more than five years with the Northville Baseball-Softball Association. In law school, he was elected to serve as the Executive Director of the Moot Court Board for the MSU College of Law.

Lindsey Wilson has a bachelor's degree in Biology from the University of Michigan and a law degree from the Michigan State University College of Law. Currently, he is corporate counsel for a Fortune 500 corporation based in Michigan, and has served as a federal prosecutor for the United States Attorney's Office for the Criminal Division of the Eastern District of Virginia, and a trial attorney for the US Department of Justice Antitrust Division in Washington D.C.; as well as has been an attorney with two major law firms based in Silicon Valley and in the Midwest.

Mr. Wilson says "I am a scientist at heart and a lawyer by trade, with a strong sense for standing up and doing the right thing. As a father in a blended family, I have been there with my kids as they have experienced the numerous highs and lows of life as a family. I am eager to listen to the stakeholders in this community—including the kids and teachers—and then advocate and fight for what is best for all of them."

"Our school district is our collective crown jewel," he adds. "It has given so much to me and my family, and now is the time to give back to it. We are facing incredibly challenging times, and I would like to join the board in navigating through both the Covid-19 pandemic and the rising tide of student well-being and health-related issues—which I believe will only be exacerbated by this crisis. We can get through this together as a community, with common sense and level headedness — putting the safety of students, teachers, and families first—without politicizing the issues and without losing critical focus on student health, happiness and inclusion."
