

~Howdy & Welcome to My Sailin' Sales!~

Shipping to US is \$7, I'll probably have to add .50 per extra bottle, until I figure an alternate method of shipping.

International shipping, just let me know the destination and I can quote you. Sending through Ajevie is fine with me.

I often take around a week or so to send, and will update once I send with a message or tracking number on PP.

Bottles less than full are usually decanted cleanly, or bought as partials from other sources.
