

CLARITY EXTENSION – PRIVACY POLICY

Last updated: May 2026

1. DATA WE COLLECT

Clarity collects the following data, stored locally on your device only:

- Social media usage: which platforms you visit
and how long you spend on them
- Meeting data: duration and cost calculations
for Google Meet and Zoom sessions
- Website scan results: dark patterns detected
on pages you visit (not the page content itself)
- Settings and preferences you configure

2. DATA WE DO NOT COLLECT

We do not collect your name, email, location, passwords, personal messages, browsing history, or any personal information. We have no servers.

No data ever leaves your device.

3. DATA STORAGE

All data is stored locally using Chrome's built-in storage (`chrome.storage.local`).

It never leaves your browser. You can export or delete your data at any time from Settings.

4. PERMISSIONS

- Storage: to save your usage data locally
- Tabs: to detect which site you are visiting
- Alarms: to save data periodically
- Notifications: for optional daily reminders
- Host permissions: to inject time tracking on social media sites, cost tracking on meeting platforms, and pattern detection on any website

5. THIRD PARTIES

We do not sell, share, or transfer any data to third parties under any circumstances.

6. CONTACT
