

MAP RULES!

The deadline will be 2 weeks! extensions can be asked without hesitation :]

Putting as many parts or backups in your application *may* increase a higher chance to get in!

Please be a little experienced! This is not beginner friendly but I won't be too picky regarding that.

Make the canvas size as 1920x1080!

Don't be afraid to ask for help!

WIP spamming is encouraged! This helps catch any errors early on.

the codeword is: cactus

If you need to drop PLEASE LET ME KNOW! Dropping is totally fine and normal! Even if you just lost motivation it's perfectly fine! Just please let me know as soon as possible so I'm able to reorganize asap!

I expect you to be active! I don't want you to join the MAP and then go completely silent.

Your part can be either AMV or PMV(with some tweening still!)

No watermarks! (ex flipaclip, ibispaint)

Collabs are totally welcome! Just tell me who you're going to collaborate with so I can credit them properly! :)

No cut-offs!please!! the audio will be cut for you :]

You must follow the color palette!!! and the backgrounds!

You can take 2-3 parts max!

I made some parts short for people who want short timed parts and some medium-long parts for those who want long timed parts!!

So if you want another part, long or short timed, don't hesitate to ask/apply!
