FOR IMMEDIATE RELEASE

THE WHALEMOBILE COMES TO _____

The Whalemobile and its life-sized (43 ft.) inflatable whale, Nile, are coming to libraries in _____ as part of the summer reading program! [Insert link: <https://thewhalemobile.com/summer-tour-dates>]

Children and families will have the rare opportunity to step inside Nile, a life-sized inflatable humpback whale modeled after a real 39-year-old whale that The Whalemobile team has observed nearly every summer since 1994 off the coast of Massachusetts. During this immersive, interactive experience, participants will discover how whales are both similar to and different from humans, follow Nile's migratory journey, learn about her calves, and explore how scientists and whale watch naturalists gather information about individual whales over time. Hands-on artifacts—including baleen, teeth, and bones—will give children the chance to see and touch the remarkable adaptations that help these ocean giants survive in the wild.

At the end of the presentation, attendees will be encouraged to adopt "Whale Safe Habits" to help protect whales, the ocean, and our planet.

With over 50 years of combined experience observing whales off the Massachusetts coast, The Whalemobile team consists of passionate naturalists from various whale watch companies in New England. They bring their expertise and enthusiasm into schools and libraries, inspiring the next generation of ocean advocates.

The Whalemobile's mission is to captivate and connect students with the ocean—both emotionally and intellectually. By sparking curiosity and fascination for whales, we hope to inspire lifelong environmental stewardship.

We would love to bring Nile to libraries and schools in _____ during the 2026-2027 school year! For more information, visit www.thewhalemobile.com.
