Kobe is a major commercial port city in Japan. It is situated in the Southwest of Honshu Island, on Osaka Bay, near the city of Osaka. Local agricultural production includes rice and other grains, fruits and vegetables, and tea. Shipbuilding and production of rubber goods are of primary importance to the city. Chemicals, machinery, electrical equipment, textiles, refined sugar, flour and sake are also produced here. Behind the narrow coastal site of the city are the Rokko Mountains, on which there are hot springs and suburban residences and hotels. The city did not become important until the 1860s, when Japan was opened to foreign trade.

On January 17, 1995, a terrible earthquake struck Kobe. It was the deadliest earthquake to hit Japan since 1923. The earthquake caused buildings and bridges to collapse and fires broke out throughout the city. In all, about 5,000 people were killed and more than 21,000 people were injured. More than 30,000 buildings were damaged by the earthquake and hundreds of thousands of people were left homeless.
