

Otay Jane Doe	Teresa Cupps	Factor/Variable Match
Found: 2/14/78	DLC: 1977 (no approximate date specified) Namus says Jan 1, 1978. Other sites say Jan 1, 1977	✓ See comment for PMI
Location: Otay, CA	Location: Oklahoma City, OK	✗ wide distance
PMI: 2 days	Missing for an average of one year when Jane Doe was found.	✓ Jane Doe believed to be abused/tortured for an extended period. Could explain the time between Teresa's DLC and Jane Doe discovery date
Height: 5'0-5'1	Height: 5'0-5'3	✓
Race: White	Race: White	✓
Hair color: brown	Hair color: brown	✓
Eye color: possibly brown	Eye color: brown (per Namus)	✓
Age: 14-18	Age: 18-20 (discrepancies due to unsure DLC)	✓ with the age discrepancies, match is still within relative age range
Distinct physical features: Braided ponytail	Distinct physical features: Tattoo right ankle	✗ Jane Doe is not listed to have any tattoos, but due to the remains being

- Pierced ears - Right ear malformed and smaller than left - Remains were burned after death	- Possible tattoo right leg - Track marks from heroin use - Possible abdominal scar	burned it is possible tattoos weren't visible. - Doe Network does say most damage was to the right side of her chest and groin. Legs and arms received minimal damage. However it is unspecified what "minimal" entails.
Jewelry/Clothing: - Denim overalls - White halter top with blue flowers	Jewelry/Clothing: -unknown	-unknown
Current Exclusions: - none	Current Exclusions: -24 exclusions per Namus, none are Otay Jane Doe	
Identifiers: Dentals: Available. She had extensive dental work completed, including a root canal on the lower front right incisor, which was also cracked in half. Fingerprints: Not available. DNA: Not available.	Identifiers: Dentals: Not available Fingerprints: Available DNA: Unknown	- Jane Doe's fingerprints are presumably not available due to the condition of the remains. Not sure why Teresa's dentals are not available
