Equipment #		**Manufacturer**	
Location		**Inspected On**	
Inspected By		**Re-Inspection**	

S/#	Criteria	Yes	No	Comments
Physical Appearance				
1	Equipment is in good condition, free of damage/crack/rust?			
2	The cabin of the equipment is clean from inside?			
3	Cabin is secured with ROPS & FOPS for operator protection?			
4	The door is in good condition, provided with lock?			
5	The seat belt and seat are in good condition, free of cuts?			
Engine Compartment				
1	The engine is working properly?			
2	The battery, battery terminals & wiring are in good condition?			
3	Battery is accurately connected with the terminals?			
4	Engine oil, and water level in the reservoirs are as per level?			
5	Fan belt is in good condition & Engine compartment is locked?			
Hydraulic Assembly				
1	Hydraulic Oil reservoir is as per required level?			
2	Hydraulic pump is working properly?			
3	Hydraulic cylinders are in good condition?			
4	Hydraulic hoses and pipes are in good condition?			
5	There is no leakage of the hydraulic oil or any other fluid?			
Wheels Assembly				
1	Wheels are in the good condition?			
2	Wheel nuts and bolts are in good condition?			
3	The tires are not worn or damaged?			
4	Tires are tightened to the required torque?			
5	Air pressure in the tires is as per required bar?			

S/#	Criteria	Yes	No	Comments
Warning Alert System				
1	Reverse alarm is working properly?			
2	Klaxon light is installed and working properly?			
Electrical System and Controls				
1	All the controls are in good condition, properly labelled?			
2	Horn and turn indictors are working?			
3	Electrical wirings are insulated and covered?			
4	Electrical joints are insulated properly and covered?			
5	Front light, rear light, and cabin light is working properly?			
Emergency Equipment				
1	First Aid box is provided, valid items are provided?			**Expiry Date**:
2	Fire Extinguisher is available?			**Expiry Date**:
3	Emergency Triangle or Safety Cons are available?
