

Subject: Request for clarity on reporting terminology
Email address: newsonline.errors@bbc.co.uk

Dear BBC News,

I recently read your article ([\[insert link\]](#)) on [\[insert topic\]](#) and came away quite confused.

You report on [\[insert names / individuals\]](#), yet at no point do you clarify their gender or their “biological sex”. Given the current media focus on these concepts, I’m unsure how I’m supposed to understand who these individuals really are.

Are they [\[gender\]](#)? Are they “biologically [\[sex\]](#)”?

At present, it feels inconsistent and, frankly, quite confusing.

I would appreciate clarification and, if appropriate, an update to the article.

Kind regards,
[\[Your Name\]](#)
