Week 2: 8/21 - 8/25

	Monday 8/21	Tuesday 8/22	Wednesday 8/23	Thursday 8/24	Friday 8/25
Subject: Theory/Clinical					
Agenda	<ul style="list-style-type: none"> Get into groups and begin working on assignments. 	<ul style="list-style-type: none"> Get into groups and continue working on assignments. 	<ul style="list-style-type: none"> Continue working on assignments. We will move onto the next group assignment by the end of class today. 	<ul style="list-style-type: none"> Get into groups and continue working on assignments. 	<ul style="list-style-type: none"> Get into groups and finish assignments. By the end of class, you should have finished two assignments for this week. Monday, each group will move onto the last assignment.
Classwork	<ul style="list-style-type: none"> Group A- CPR Group B- StopTheBleed Group C- Resume 	<ul style="list-style-type: none"> Group A- CPR Group B- StopTheBleed Group C- Resume 	<ul style="list-style-type: none"> Group A- StopTheBleed Group B- Resume Group C- CPR 	<ul style="list-style-type: none"> Group A- StopTheBleed Group B- Resume Group C- CPR 	<ul style="list-style-type: none"> Group A- StopTheBleed Group B- Resume Group C- CPR
Learning Objectives	<p>We will learn about the knowledge and skills of a health care professional necessary to acquire and retain employment.</p> <p>I will use the provided resume template to begin writing my healthcare resume.</p>	<p>We will learn about the knowledge and skills of a health care professional necessary to acquire and retain employment.</p> <p>I will use the provided resume template to continue writing my healthcare resume.</p>	<p>We will learn about the knowledge and skills of a health care professional necessary to acquire and retain employment.</p> <p>I will use the provided resume template to continue writing my healthcare resume.</p>	<p>We will learn about the knowledge and skills of a health care professional necessary to acquire and retain employment.</p> <p>I will use the provided resume template to finish writing my healthcare resume.</p>	<p>We will describe the importance of high quality CPR and it's impact on survival.</p> <p>I will use the steps of the adult Chain-of-Survival to recognize the the signs of someone needing CPR</p>

Week 3: 8/28 - 9/1

	Monday 8/28	Tuesday 8/29	Wednesday 8/30	Thursday 9/1	Friday 9/1
CPR, StopTheBleed, and Resume Building					
Agenda	<ul style="list-style-type: none"> Get into groups and begin your last assignments. 	<ul style="list-style-type: none"> Get into groups and continue working on assignments. You should have all assignments completed by the end of class today. 	<ul style="list-style-type: none"> We will play review games to prepare for the CPR Cert final exam. Take CPR exam during second half of class. 	<ul style="list-style-type: none"> We will review StopTheBleed information. Complete the skill portion of the certification together as a class. 	<ul style="list-style-type: none"> Get caught up on any late or absent work. All 3 group assignments are due by the end of class today. All three grades will be combined for a test grade in Skyward.
Classwork	<ul style="list-style-type: none"> Group A- Resume Group B- CPR Group C- StopTheBleed 	<ul style="list-style-type: none"> Group A- Resume Group B- CPR Group C- StopTheBleed 	<ul style="list-style-type: none"> CPR exam 	<ul style="list-style-type: none"> StopTheBleed skill portion of certification 	<ul style="list-style-type: none">
Learning Objectives	<p>We will describe the importance of high quality CPR and it's impact on survival.</p> <p>I will check for scene safety by following the steps of scene safety before beginning the chain of survival steps for a patient in need of CPR.</p>	<p>We will apply Basic Life Support concepts while performing high quality CPR.</p> <p>I will use the appropriate ratios for breaths and compressions, while using a pocket mask, for 1-rescuer CPR.</p>	<p>We will describe and understand the importance of early use of the AED and demonstrate it's proper use.</p> <p>I will follow the proper steps for AED use on an adult and infant patient.</p>	<p>We will learn how to perform high quality CPR for infants and children.</p> <p>I will use the chain of survival for infants and children to perform high quality CPR.</p>	<p>We will learn how to perform as an member of the multi-rescuer team while performing high quality CPR.</p> <p>I will learn all aspects of each team member to effectively perform multi-rescuer CPR.</p>

Week 4: 9/4 - 9/8

	Monday 9/4	Tuesday 9/5	Wednesday 9/6	Thursday 9/7	Friday 9/8
Theory/Clinical					
Agenda	NO School Student/Staff Holiday	<ul style="list-style-type: none"> First half of class play review game for CPR exam. Finish CPR skills check-offs. Second half of class take CPR exam. 	<ul style="list-style-type: none"> Hand out and go over VS skill check-off sheet. Assign Stop the bleed training. Students who are not being checked off on VS need to be working on stop the bleed training. 	<ul style="list-style-type: none"> Begin going over VS skill check-off. Stop the bleed training. 	<ul style="list-style-type: none"> Continue VS skill check-off's. Continue Stop the bleed training.
Classwork		<ul style="list-style-type: none"> CPR Exam 	<ul style="list-style-type: none"> 		
Learning Objectives		<p>We will learn how to perform as a member of the multi-rescuer team while performing high quality CPR.</p> <p>I will learn all aspects of each team member to effectively perform multi-rescuer CPR.</p>	<p>We will demonstrate the ability to effectively assess and manage life-threatening bleeding in a clinical simulation. By applying direct pressure, use hemostatic agents, and employ appropriate bandaging techniques to control severe bleeding, adhering to the latest clinical guidelines and safety protocols.</p> <p>I will acquire</p>	<p>We will demonstrate the ability to effectively assess and manage life-threatening bleeding in a clinical simulation. Grades					<ul style="list-style-type: none"> • CPR Exam • VS skill check-off-quiz grade • Stop the bleed training-quiz grade

Week 5: 9/11 - 9/15

	Monday 9/11	Tuesday 9/12	Wednesday 9/13	Thursday 9/14	Friday 9/15
Clinical-Theory (Infection Control)					
Learning Objective	<p>We will be able to analyze the difference between microorganisms, non-pathogens, and pathogens and identify different types of pathogens, bacteria, parasites, and fungi.</p> <p>I will complete a worksheet categorizing different microorganisms into pathogens and non-pathogens</p>	<p>We will be able to distinguish between different types of diseases (endogenous, exogenous, nosocomial, opportunistic) and define infectious disease and communicable disease. We will also identify the components of the chain of infection and explain the primary modes of transmission in the chain of infection.</p> <p>I will work in groups to create a visual representation of the chain of infection in relation to specific disease processes and present it to the class.</p>	<p>We will understand the importance of maintaining asepsis to prevent the spread of disease.</p> <p>I will compare and contrast medical and surgical asepsis, and describe the three levels of asepsis and their characteristics. Then I will create a visual on different transmission based precautions using specific PPE for each precaution.</p>	<p>We will be able to distinguish between different types of diseases (endogenous, exogenous, nosocomial, opportunistic) and define infectious disease and communicable disease. We will also identify the components of the chain of infection and explain the primary modes of transmission in the chain of infection.</p> <p>I will work in groups to create a visual representation of the chain of infection in relation to specific disease processes and present it to the class.</p>	<p>We will be able to distinguish between different types of diseases (endogenous, exogenous, nosocomial, opportunistic) and define infectious disease and communicable disease. We will also identify the components of the chain of infection and explain the primary modes of transmission in the chain of infection.</p> <p>I will work in groups to create a visual representation of the chain of infection in relation to specific disease processes and present it to the class.</p>
Agenda	<ul style="list-style-type: none"> First part of class I will assign your CPR cards and walk everyone through claiming their CPR cards. Intro to infection control Lecture through <ul style="list-style-type: none"> Microorganisms Infections Asepsis 	<ul style="list-style-type: none"> Get TB tests completed in the first half of class. Complete hand hygiene and cleaning medical equipment skills check off. Begin standard Precautions. 	<ul style="list-style-type: none"> First half of class we will complete Using gowns, masks, eye-wear, and non-sterile gloves skill check offs. Begin going over sterile technique. Lecture through 	<ul style="list-style-type: none"> Assign PPE posters and instructional videos. Get into groups and begin working on projects. Anyone who has not 	<ul style="list-style-type: none"> Continue working on PPE posters and videos. Last day to get skills check offs completed.

	<ul style="list-style-type: none"> ○ Hand Hygiene ○ Cleaning Equipment ● Complete AES notes while working through the lecture. 	<ul style="list-style-type: none"> ● Lecture through <ul style="list-style-type: none"> ○ Standard precautions ○ Gowns ○ Masks and Eyewear ○ Non-sterile gloves ● Complete AES notes while working through the lecture slides. 	<ul style="list-style-type: none"> ○ Sterile field ○ Sterile gloves. ● Complete AES notes while working through the lecture slides. 	completed skills check offs will need to complete this first.	
Homework	<p>Read over the skills check-off sheets and be prepared to complete the following skills check-offs first thing tomorrow.</p> <ul style="list-style-type: none"> ● Proper Hand Hygiene ● Proper cleaning of medical equipment. 	<p>Read over the skills check-off sheets and be prepared to complete the following skills check-offs first thing tomorrow.</p> <ul style="list-style-type: none"> ● Using gowns ● Using masks and eye-wear ● Using non-sterile gloves. 	<p>Read over the skills check-off sheets and be prepared to complete the following skills check-offs first thing tomorrow.</p> <ul style="list-style-type: none"> ● Using sterile gloves. 		
Grades	<ol style="list-style-type: none"> 1. Hand Hygiene Skill check off. 2. Cleaning of medical equipment skill check off. <p>**Both skills will be quiz grades.</p>	<ol style="list-style-type: none"> 1. Using gowns, masks, eye-wear, and non-sterile gloves skill check offs. <p>**All skill check offs will be quiz grades.</p>	<ol style="list-style-type: none"> 1. Using sterile gloves skill check off. <p>**Skill check off will be quiz grade.</p>	<ol style="list-style-type: none"> 1. PPE poster and video quiz grade. 	<ol style="list-style-type: none"> 2. PPE poster and video quiz grade.

Week 6: 9/18 - 9/22

	Monday 9/18	Tuesday 9/19	Wednesday 9/20	Thursday 9/21	Friday 9/22
Infection Control/Isolation Precautions/Maintaining Sterile Field					
Learning Objective	No School Staff Development/ Student Holiday/	<p>We will understand the importance of cleaning objects or equipment using sterile technique and how this prevents the spread of infection.</p> <p>I will identify the items needed to clean objects or equipment properly and explain the benefits and uses of an ultrasonic unit for cleaning objects or equipment by creating a cleaning protocol for a specific piece of medical equipment and present it to the class.</p>	<ul style="list-style-type: none"> Tour Amarillo College West Campus and Allied Health 	<p>We will adhere to the professional standards required in a clinical setting, including uniform dress code, personal appearance, and compliance with HIPAA rules and patient confidentiality.</p> <p>I will ensure my uniform and personal appearance meet the specified guidelines, and I will rigorously adhere to HIPAA rules and maintain patient confidentiality at all times. My commitment will contribute to a professional and ethical environment, respecting the rights and privacy of patients while preparing myself for a responsible role in healthcare</p>	<p>We will adhere to the professional standards required in a clinical setting, including uniform dress code, personal appearance, and compliance with HIPAA rules and patient confidentiality.</p> <p>I will ensure my uniform and personal appearance meet the specified guidelines, and I will rigorously adhere to HIPAA rules and maintain patient confidentiality at all times. My commitment will contribute to a professional and ethical environment, respecting the rights and privacy of patients while preparing myself for a responsible role in healthcare</p>
Agenda		<ul style="list-style-type: none"> Finish Isolation precautions skills check-offs Start going over sterile field. 		<ul style="list-style-type: none"> Go over Clinical Readiness. Review Clinical section of Student Manual. Make sure everyone's clinical requirement form is completed. 	<ul style="list-style-type: none"> Take SLO assessment during first half of class. Complete community clinical site form.
Homework					

Grades			<ul style="list-style-type: none">• Donning sterile glove skill check-off Quiz grade	<ul style="list-style-type: none">• Completed clinical requirement form Quiz grade	<ul style="list-style-type: none">• SLO daily grade
