BELIEF VS. RELIGION

Purpose

Use your prior knowledge to think about the similarities and differences between belief systems and religious systems before you learn more about both in this lesson.

Process

1. Use the word bank and any other words or phrases you can think of to build a concept map around the circled terms below. Draw a line from each word to the circled term(s) it relates to. We've used *sacred text* as an example, below. You can also connect the words you add to the map to each other. There are no right or wrong answers as long as you can explain the connection.

	Word bank:	
Divine	~~Sacred text~~	Opinion
Trust	Rules	Ideology
Structure	Morals	Worship
