

This post is very long, but consists of every TERF/“gender critical” blog I was able to find (including “radfem ally” blogs run by non-women).

I only note previous urls for extremely prominent figures in TERF tumblr who are likely recognized by their previous url.

Also, I am only one person working on this blacklist, so if anyone could check for deactivated blogs, changed urls, or just give me the name of a terf/terf “ally” blog—I would much appreciate it. Send all asks to [@terf-blacklist](#) on Tumblr!
