

Charter for MAG WG to support evaluation and implementation of improvements to the IGF (WG-IMP)

Purpose

- Review the set of recommendations for IGF improvement and documents that offer direction or community input on specific topics to assess the extent to which they have been implemented. For those which are considered implemented this would be noted in a report of the group and for those still in the process of being implemented, and those which have yet to begin implementation, recommendations would be made.
- The set of inputs for this analysis includes:
 - The CSTD WG on IGF Improvements [Report](#)
 - The [document](#), set up by a MAG WG in 2013 to analyse progress towards CSTD improvements
 - Recommendations made by UNGA on approval of CSTD WGIGF
 - Recommendations made by UNGA on renewal of the IGF mandate
 - Gleaning from the DESA Retreat on the IGF of 2016 for assessment, feasibility analysis, and prioritization.
- Develop targets, milestones, and indicators to measure the current and future progress, towards recommendations that have not been fully implemented.
- Propose next steps for MAG and the wider IGF community. Can include:
 - Possible proposal for IGF 2017 session
 - Engagement with National and Regional IGF as appropriate within the IGF/MAG remit.
 - Charter for future WG, if needed.
 - Establishing thematic sessions on the various issues at future IGFs
 - Propose the formation of new WG(s) for implementing specific recommendations where needed

Membership

This group shall be open to both MAG members and other members of the IGF participant community. The group needs to include active participants from all stakeholder groups including strong participation from developing economies..

The WG will be co-facilitated by one MAG member and one non MAG community member, one of whom comes from a developing economy. The co-facilitators to be chosen by the group with the approval of the MAG.

Group to be initiated by a group of MAG volunteers including Avri, Lea, Miguel, Flavio, Shita, and Racquel.

Relationship to other IGF efforts

- Working in synergy with Working Group on Communication & Outreach and other WG's, where applicable.

Output

- Report on degree of completion of IGF improvement recommendations
- Recommend multi-year tactical approach for continuation of IGF improvements, based on analysis.
- Recommend metrics that can be used to measure the degree of progress on the recommendations for improvement.
- Reporting back session for wider IGF community at next F2F MAG consultation
- Report of engagement process with National and Regional IGFs which have been listed in IGF
- Possible proposal for IGF2017 (session)
- Proposed Charter for next steps
