Cell Parts Veritech

Case

1. The control centre of the cell
2. Animal cells are these
3. A single layer of membrane enclosing fluid in a sac
4. Cell wall
5. Chloroplasts
6. Powerhouse of the cells
7. Ribosome
8. A three-dimensional network of branching tubules
9. Plasma membrane
10. The fluid in which the organelles are suspended
11. A cell without a nucleus
12. Golgi apparatus

Tiles

1. Perform photosynthesis
2. Vacuole
3. Eukaryotes
4. Mitochondria
5. Endoplasmic reticulum
6. Provides support for the cell, found only in plants
7. Collect and process materials to be removed from the cell
8. The boundary of the cell
9. Nucleus
10. Prokaryote
11. Where proteins are made
12. Cytoplasm
