

OJSAT organized the event “Study in Japan 2024”

OJSAT has been assigned by the Japan Student Service Organization (JASSO) to be the organizer of “Study in Japan 2024” at Centara Grand Hotel @Central World on September 8, 2024, after the event was stopped for 5 years due to the COVID-19 outbreak. This time, 39 universities and educational institutions from Japan and 11 specialized schools and Japanese language schools from Japan came to provide information directly to those interested in studying in Japan.

Moreover, there was a sharing of experiences in Japan by alumni who are members of OJSAT and lectures to provide useful information such as information on Japanese government scholarships by representatives from the Japan Embassy in Thailand and providing information services to various educational institutions in Japan by representatives of JASSO Thailand office.

The event was very lively because many Thai students and parents come to receive information from various educational institutions that they are interested in and to inquire about various issues which received clear answers from representatives of each institution who attended this event.

And another corner inside the event which was also very lively. Because there were many people interested in using the service, that was, counseling from alumni who are young members of OJSAT and recently graduated back from Japan.
