

name of the park	ideas for its future use, management and development.	issues	What improvements, if any, would you like to see made to your local natural park?
1.5.4 Te Akau South Esplanade, Te Akau South	Walking tracks 950 and 951 as in <a href="#">Trails Strategy 2016</a> .	Gap in 951 at Marotaka Pt and 'private' sign at start of track.	Signpost and provide more views of Raglan from Horongarara pa site. All the reserves would benefit from regular plant and animal pest control. Attempts should be made to set up, assist and educate volunteer groups to help maintain and publicise each reserve.
1.5.6 Waingaro Bush Reserves, Te Akau	Better publicity, interpretation signage and signposting for this attractive circular walk.	Dirty Waingaro River needs much more fencing to reduce stock access.	A northern entrance could be added via the river reserve and bridge.
1.6.1 Aroaro Bay Reserve, Raglan	Nature reserve and water cleaning area.	The reserve should be extended to include Cross St paper road, bush area to Lilly St and the area of rough grass between Violet St and the rugby ground.	Boardwalk for track 206 as in Trails Strategy 2016, interpretation signs and settling ponds. Implementation of Kessels wetland restoration plan.
1.6.2 Greenslade Road Reserve, Raglan	Nature reserve and water cleaning area.	Removal of weeds.	Signposted walkways linking to Greenslade Rd and Lorenzen Bay (track 206 as in Trails Strategy 2016), interpretation signs and a settling pond.
1.6.3 Okete Nature Reserve, Te Uku	Viewing point for Okete Falls.	Access from Okete Rd.	Signposted walkways.
1.6.4 Raglan Reservoir, Te Uku	Nature reserve, climbing wall and part of a Hills Rd walkway.	Removal of weeds.	Walkway to the best preserved kumara pits in the Raglan area.
1.6.5 Ruapuke Beach Esplanade, Raglan	Coastal walkway with safe fishing platforms.	Part of the area is administered by DoC. Joint plan needed.	Walkway and viewing points for waterfalls.
1.6.6 Totara Grove Reserve, Waitetuna	Nature reserve.		Encourage Totara Gr residents to help with planting and conservation.
1.6.7 Waterworks Wildlife Refuge Plantation Reserve, Raglan	Nature reserve, wetland and walkway.	Removal of weeds.	Signposted walkway linking Rangitahi to Te Hutewai Rd via pond and water tower with interpretation signage for wildlife and flaxmill.
Kaitoke Walkway	Nature reserve.	Removal of weeds.	Better signage and links to 1.6.4 above.
Papahua Reserve	Nature reserve on dunes		Track 203 as in Trails Strategy

	behind Wainamu Beach.		2016.
Nihinihi Ave	Nature reserve and track 207 as in Trails Strategy 2016.	Fences.	
Joyce Petchell Park ID 6764422	Nature reserve with steps to beach.		Replace weeds with native plants. Signpost steps. Add geology interpretation panel.
Oporu Rd esplanade reserves ID 4507281, 4353064, 4500069 and 4431732	Nature reserve.		Replace weeds with native plants. If Oporu Rd becomes unsuitable for pedestrians, build a boardwalk on the harbour edge of these reserves.
Smith St reserve ID 4509963	Nature reserve and walkway.		Walkway link from Oporu Rd to Golf Course.
Rangipu dunes ID 4453829	Nature reserve.	Erosion.	Plant with spinifex and pingao.
Road reserves such as Bow St, Upper Bow St, Bow St water tower and Cliff St	Plan for maintenance and replacement of trees and other vegetation.		Provide car-free cycle and walk routes.
Paper roads such as lower part of Robert St ID 4589214 and Pooley's Rd ID 3650771	Replace weeds with natives.		Provide car-free cycle and walk routes, including the planned <a href="#">Wainui Rd to Te Hutewai Rd track</a> .
Front of Wainui Rd sewage works	The sewage pond was removed to allow restoration of the natural drainage and vegetation.		The road margin beside the creek has been planted. The rest of the area should be similarly managed.
Rangitahi			The plan should set out who is responsible for creation and maintenance of reserved areas in the new development.
West St ID 3650771	Steps and walkway.		Provide screen planting beside the steps and on the Wainui Rd reserve. Signpost each end.
Lily St east end and Cox Bay esplanade reserve	Nature reserve.		Plant natives and build track 206 (as in Trails Strategy 2016) to reduce cliff erosion.
Greenslade Rd and Bridal Creek reserves	Nature reserve and walkways.		Plant open areas with natives. Signpost walkways and paper roads. Install a rope cage to across Bridal Creek to link the paper roads.
Te Uku Landing reserve	Nature reserve.		Plant open areas with natives.

Te Mata Domain	Sports ground.		Plant streamside with a belt of native trees. Preserve foundations of the 1899 Te Mata dairy and mark with interpretation panel.
