Hi, my name is Clarissa Sicarios. I work in Monterey County, Gonzales Unified School District, and I am an English and ELD teacher. So I had a student who I met during COVID virtual learning [and] was going through a tough time, and then we came back in person—a lot of things happening, but sticking by her side and reaching out via email [and] in person. I saw that spark that she lost reignite, and she's now a Fresno State Bulldog, and she's on her second year, and she's emailing me constantly, always reminding me, "Thank you for what you did. Without you, I wouldn't be here, and to me, that's a student success story that I will forever hold dearly in my heart."
