SIX FEET UNDER - Billie Eilish

```
Am       G       F     G
help I lost myself again
    Am     G    F
but I remember you
Am           G         F        G
don’t come back it won’t end well
      Am        G        F
but I wish you’d tell me to

CHORUS:
            Am        G
our love is six feet under
        F        G
I can’t help but wonder
       Am        G              Dm
if our grave was watered by the rain
            F   Am
would roses bloom?
            F   Am  G
could roses bloom?
F
again

VERSE:
  Am       G       F       G
retrace my lips erase your touch
     Am      G        F
it's all too much for me
Am    G        F        G
blow away like smoke in air
    Am          G       F
how can you die carelessly

[Repeat CHORUS]

BRIDGE:
F                      G                Am
they're playin us out, layin us down tonight
    F                   G                Am
and all of these clouds cryin us back to life
G               F
but you're cold as a knife

[Repeat CHORUS]

OUTRO:
Am       G       F     G
help I lost myself again
    Am     G    F
but I remember you
```
