

Band Into Real Health Policy
COR WOMAN
Spring 2025

A gentle reminder of our **health policy**. Please be mindful of the heightened outbreaks at this time of year, including seasonal ailments, and do take care of your wellbeing in coming weeks. We highly encourage using as many prevention strategies as you can, such as practicing hand hygiene, consistently and correctly wearing a high-quality mask (KN95), and keeping your distance in large group settings. If you are traveling by airplane to the event, we invite you to consider wearing a mask during your travels to help minimize risk.

If you are showing **any signs** of symptomatic illnesses within the five days leading up to the event or in the two days following the event, it is your responsibility to inform Band Into Real Client Care (Coco) as soon as possible.

If you are unwell *before* the event, you may be asked to not attend; if so, Band Into Real will credit **half** of your registration fee to a future Band Into Real event/workshop, to be used within 24 months. If you show any signs of symptomatic illness *during* the event, an Event Manager reserves the right to check in with you and discuss possible protective measures such as masking, testing, isolating, etc.

Should there be a contagious illness outbreak at the event or communicated to Band Into Real within two days after the event, Band Into Real will inform all attendees within two hours (either onsite or by email or text) upon notification to the Event Manager.

We recognize the significant impact of any outbreaks and we ask for your support in creating a safe and healthy container for the weekend.
