

This has been a long ride! And I appreciate everyone for being patient and bearing with me. My job decided to hit me with a new schedule that made it difficult to be here. Anywho. This will be the final phase of this SL, so let's make it a huge one! That said, in this phase, I will lift the reply limit because I've been having y'all waiting so long. The momentum decreased, but me and those who helped me along the way gonna see to it that this finishes! I want to apologize for that toxic group chat we had. On paper, a group chat for an SL would seem convenient. However, this community has a lot of bad apples or people who can't agree with each other, so drama is bound to happen. This is why the group chat had to be deleted for everyone's energy.

## Phase 3 :

### POCKET DIMENSION.

Tony Stark ( [@FuturistStark](#) ) created an A.I that is the most advanced quadrant of the universe. Knowing that Reed Richard and Tony Stark had experience building a pocket dimension, the A.I used that knowledge to create a **World-Wide Transport**. But by doing so, the A.I will be sacrificing itself. Once activated, people began to vanish one by one to safety.

## TIME BREAKER GODZILLA.

The arrival of Godzilla ( [@ATOMICDIVINITY](#) ) was soon to be deadly. Unlucky for the mighty deity, Towa ( [@DEMONSCIENTIST](#) ) placed the monster under her control. With all that rage and hatred, the beast was now the legendary **Time Breaker Godzilla**. The duo of Time Breaker Godzilla and Towa battled Sung Su-Ho ( [@SYSTEMSHEIR](#) ), Jellal ( [@TENTAIMAJIKKU](#) ), and the **Champion of Slaanesh** Mihoko. ( [@DEVOURALLDESIRE](#) )

## COLLECTING THE CHAOS EMERALDS.

Vegeta ( @XenoBejita ) informed Lucy ( @Dollisim ) and Superman ( @SaviourOfSteel ) about the evil villains, Towa and her son, Time **Breakers**. Informing the two that they would need to contact **The God of Destruction, Lord Beerus** ( @UndoingCreation ), to use the power of the Super Dragon Balls to **destroy the tree**. This job was for Lucy, as she gathered three teammates to help her retrieve the chaos emeralds. Working with her was Erza ( @FairyInArmor ), Laxus ( @KaminariMage ) and, of course, Beerus. Needing assistance, the team made their way to Princess Peach's castle, where she created a chaos emerald tracking device so the group could hunt them down.

## THANOS: THE INFINITY GHOST RIDER.

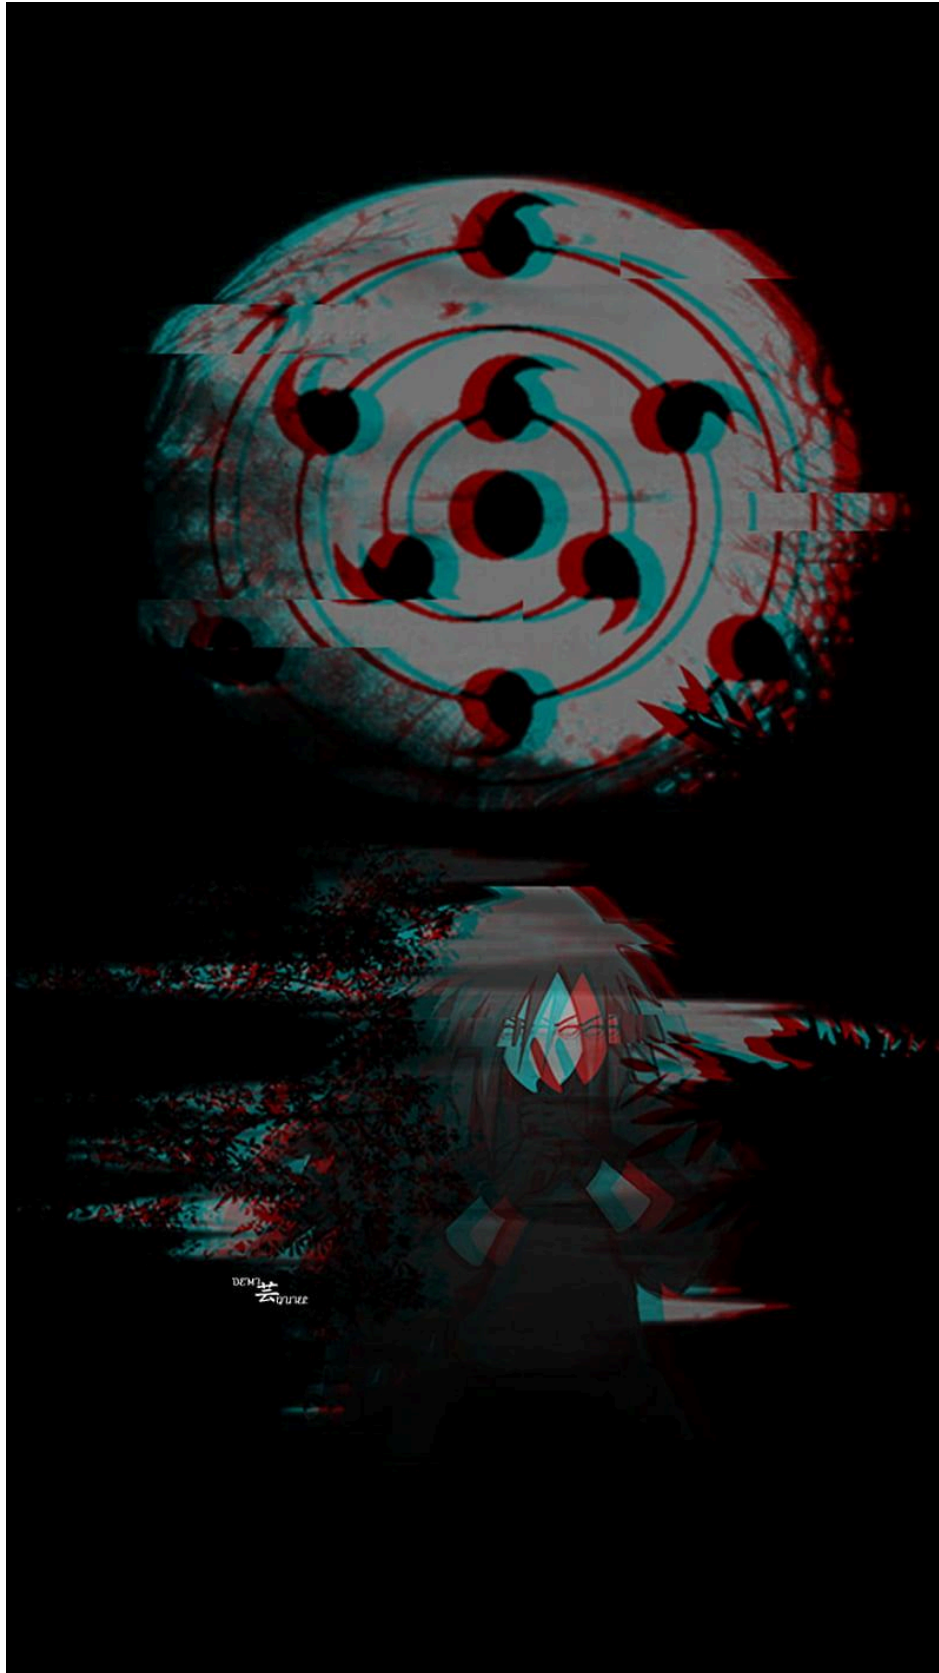

Upon the planet of M4-78, the #MASTERSOFEVIL devised a plan with the Infinite Engine to use two of the fruits that they acquired from the Multiverse Tree, and turn the two of them into an Infinity Gem. The process takes time, and far more energy than they thought. And their actions wouldn't go unnoticed. The Avengers arrived, and to buy time for the Infinite Engine to create this gem, the Masters of Evil went out to halt their movement.

Thanos intercepted Thor (@[ThereIsThor](#)) , and during this battle, Ghost Rider (@[VengeanceRiding](#)) arrived. The three of them battled it out, resulting in Thanos using the Soul Gem to steal the Spirit of Vengeance from Ghost Rider and using it for himself—— with the might of four out of six infinity gems, and the Spirit of Vengeance at his disposal, Thanos now had become the Infinity Ghost Rider!

As Thor perishes in battle, he used the last of his might to **ASSEMBLE** the X-Men, Justice League... and the Avengers!

And as far as [Madara](#) goes? You'll just have to wait and see. . . .

Continue your threads, save more civilians, learn more about the tree. If there's anything you need, DM me, and I'll try my best to reply as long as work isn't kicking my ass! If you want to do something in particular I'll try to work with you.
