

“Pennsylvania Avenue on the Road”

Learning and Acting in Community for Democracy

We started with just a group of us from Brooklyn knocking on doors in Allentown PA for Obama in 2008. That grew into bus loads for Hillary and then the big push for Kamala, with folks joining in from different parts of the Northeast as well. Thousands of doors and countless other efforts large and small, in Bucks County, South Philly and beyond.

And now we are doubling down, helping each other help democracy get back on its feet.

Learning and acting with the support of a growing group, now taking in the broader Northeast region and beyond. Federal and key state efforts. Zooms and other gatherings with organizers and trainers, leaders and doers — and coordinated efforts from protests and canvassing/text-banking to networking and fundraising.

Heading into this momentous 2026, we are taking *“Pennsylvania Avenue on the Road!”* So if you are wondering what you can do and looking for community in doing it, come join us!
