Rotations

Going to compare their AOE output on a target basis.

- Assuming their **target is BIS geared** for orvr
- Ignoring avoidances** (block/parry)
- Ignoring Guard** on the target **and/or Challenge** on the attacker (can be calculated easily by multiplying any number by 0.50 and/or 0.70)
- Ignoring outside buffs** (e.g.BW/ other WP/ procs,Chosen/KOTBS auras) **and debuffs** (Tri proc on the target, Chosen/KOTBS auras)
- Assuming that the **Boost II proc is instantly active** from the first damage instance

- **Chance based proc dots proc at their mathematical expected value = $1/p$**
- **Normal Rotation (16.5 s)**

- **Soulfire: hits 5 times** (3, 6, 9, 13.5 and 16.5)
- **Smite: hits 9 times**
- **Guilty Soul:** stacks so it hits for 1, 2 or 3 ticks every 4s depending on stacks. See the spreadsheet for exact estimated number of ticks per target per build
- **Prayer of Righteousness:** has a 20% to proc on every direct hit → If we only count the WP procs then we have $0.20 \times 9 = 1.8$ proc per 16.5 s per enemy.
Since we can expect a 2nd dps in the party, I will use Mara's/WL's direct damage hitrate for that calculation = $0.20 \times 11 = 2.2$ procs per 16.5 per enemy.
In total, **4 procs/16.5 s** per enemy

- **Blessing of Sigmar Rotation (C builds) (16.5 s)**

- **Soulfire: hits 5 times** (3, 6, 9, 13.5 and 16.5)
- **Smite: hits 8 times**
- **Guilty Soul:** stacks so it hits for 1, 2 or 3 ticks every 4s depending on stacks. See the spreadsheet for exact estimated number of ticks per target per build
- **Prayer of Righteousness:** has a 20% to proc on every direct hit → If we only count the WP procs then we have $0.20 \times 8 = 1.6$ proc per 16.5 s per enemy.
 Since we can expect a 2nd dps in the party, I will use Mara's/WL's direct damage hitrate for that calculation = $0.20 \times 11 = 2.2$ procs per 16.5 per enemy.
 In total, **3.8 procs/16.5 s** per enemy

RESULTS

https://docs.google.com/spreadsheets/d/1zvXG6S-L-tWGWnEF2bhFZenc8-u2ubbf0H_2vsGYhRI/edit?usp=sharing

Best builds are

Average performance% vs all archetypes SORTED		Average performance% - vs Non-Tanks SORTED	
4Aμ	98,5%	4Aμ	98,3%
6Av	96,7%	6Av	96,5%

6Av is the best prebis build (does not require Victorious ring), but it falls slightly behind the **4Aμ** build that is **BIS** and also **runs Fortress weapon for the Heal Debuff proc**

It seems to be **close to AOE DOK's output but performs slightly better vs squishy DPS classes and ~20% worse vs Healers**
