

Orin - Orin's Accelerating Your Evolution

In this course you will link with your soul and then draw in the light of your spirit, the source of your soul. It is your soul's light that reveals the light of spirit. As your soul awareness grows you can connect directly with spirit, also called the Divine Self, accelerating your evolution with this contact.

You will work with spirit to activate a seed of light within you that carries your potential for enlightenment. You will explore dimensions of light that can transform your being at every level, initiate new qualities of awareness, and awaken your spiritual power.

You will work with your soul, spirit, and enlightened beings of light to receive sacred codes and symbols that can activate the potential within your cells and DNA to accelerate your evolution. You will journey into the oneness, learn how to surrender to the currents of light there, and thus increase your ability to find and surrender to the light in your daily life.

You will receive from Sirius the extra planetary light of liberation, love freedom, and initiation. You will contact the Spiritual Sun to illuminate the "veil of unknowingness" that separates you from the Divine Self, for in this light the veil disappears. This contact will greatly accelerate your consciousness and ability to manifest this new light. It will assist you in opening to all the opportunities that are present right now in these changing times, in part because of the light from these sources.

You will work with your soul, spirit, and the Enlightened Ones to release limitations and blockages, and to strengthen your unique frequency of energy that is your gift to the world. You will learn more ways to let go of pain and accept joy, abundance, and love.

As you touch upon the light of spirit, the essence of your being, and as you connect with many high energies, you can increase your vision, gain new insights and perspectives, release attachments, have greater clarity about your inner truth, and experience greater wholeness. 12 journeys by Orin, with music by Thaddeus.
