

Module 2

Introduction to Teacher Tools

1. Logging into MathSpring

This topic describes how to log into MathSpring as a new or returning user. New users will learn how to create an account.

1. To log into MathSpring, navigate to MathSpring.org and click [Get Started](#).

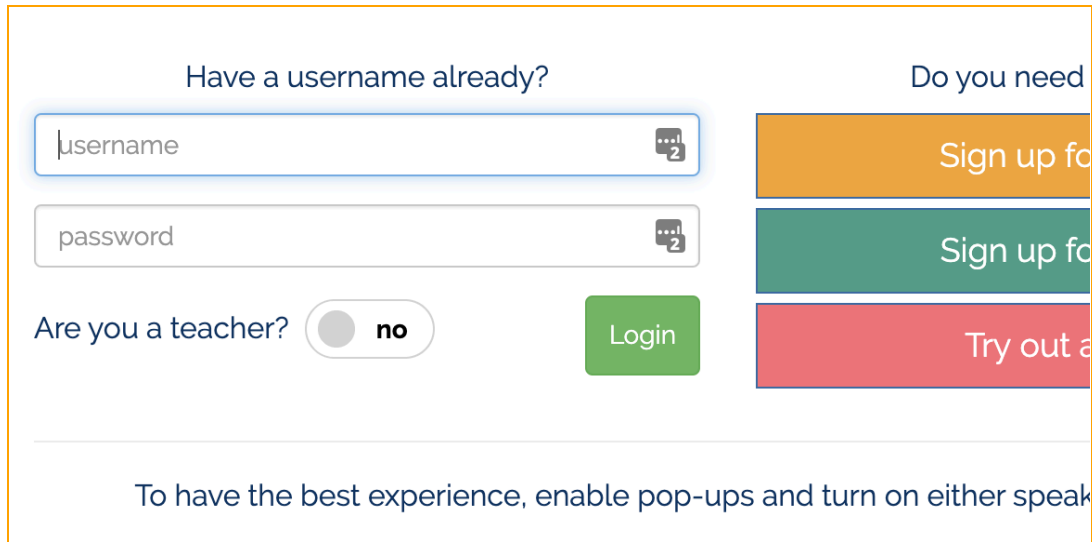

Grow your Math with MathSpring

The MathSpring Tutor will help you succeed at math standardized tests by deeply understanding the material.

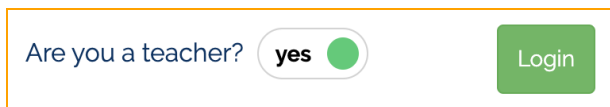

GET STARTED

2. If you have an account, type in a desired **username** and **password**.

The screenshot shows a login interface. On the left, under the heading "Have a username already?", there are two input fields: "username" and "password", each with a small icon of a speech bubble with the number 2. Below these fields is a toggle switch for "Are you a teacher?" which is currently set to "no". To the right of the toggle is a green "Login" button. On the right side of the interface, under the heading "Do you need", there are three buttons: "Sign up for", "Sign up for", and "Try out a". At the bottom of the interface, there is a note: "To have the best experience, enable pop-ups and turn on either speak".

3. Click the toggle to indicate you are a teacher.
4. Click **Login**.

The screenshot shows the same login interface as before, but the "Are you a teacher?" toggle switch is now set to "yes". The "Login" button remains visible.

NOTE: A teacher logs in to the Teacher Tools from mathspring.org, from the same place where a student logs in. The only difference is that a teacher has to indicate that they are a teacher by moving the 'Are you a teacher?' knob to 'yes',

5. If you do not have a teacher account, click **Sign up for Teacher**.

ly?

Do you need a username?

[Sign up for Teacher](#)

[Sign up for Student](#)

[Try out as Guest](#)

[Login](#)

e, enable pop-ups and turn on either speakers or a headset!

6. Fill out the teacher Sign Up Form and click [Submit](#).
7. Once submitted you can use your [username](#) and [password](#) to log into MathSpring as a Teacher, launching the 'Teacher Tools'.

NOTE: Teacher accounts are different from student accounts. A student will never be able to log in as a teacher. A teacher account will now allow you to login as a student. If you want to login as a student to one of your classes, you will have to create a student account to do so.
