

# What is a 5 Clue Challenge?

The 5 Clue Challenge is a traditional guessing game, kind of like “Name that Tune”. View this sample challenge to see how it works.

## Part I: Research

Research the exotic fruit you’ve been randomly assigned and find some interesting information and trivia about it. Use that information to create five clues about your fruit. State your clues in complete sentences, beginning with the broadest clue first for which there should be a lot of possible answers. Continue giving clues ending with the clue that is the easiest to guess.

***My Exotic Fruit is...***

| |
|---|
| |

***My Clues (from broad to specific) are…***

| |
|---|
| 1. |
| 2. |
| 3. |
| 4. |
| 5. |

## Part II: Video Clues

Record your clues on Flipgrid (use code link provided) beginning with the vaguest clue first, continuing in descending order until you get to the last, very specific clue. Do ***NOT***

reveal your fruit in the video or in the title of your recording.  Videos will be private.  A tutorial is provided on how to use Flipgrid if you need it.

## *Rubric*

| Criteria | Present | Not Present |
|---|---|---|
| 5 Clues are provided from broad to specific for assigned fruit | | |
| 5 Clues are written in complete sentences | | |
| 5 Clues are presented in video format, with pauses in between clues | | |
| Video is presented in a clear voice, with good volume and pace | | |
| Video contains only clues and no actual answers to assigned fruit | | |
