

Our Proposal to the SM64 Community

With the recent news that Milo is stepping away from Pace, we know the community is looking for the right people to step up and continue what has become one of the most exciting events in speedrunning. Like many of you, we don't want to see Pace disappear, and we believe we have the skills, experience, and passion to help make sure it doesn't.

We are two brothers and SM64 speedrunners - [TNewm](#) and [NewmanBeatbox](#) - who deeply love and respect the game, the community, and the event itself. While we know it will take a team to keep things going, we believe we are uniquely positioned to help Pace not just survive, but thrive. Here's a quick intro to our experience:

- **TNewm** has worked professionally in event technology for the past decade. His company specializes in building software and systems for major conventions and events, and he has hands-on experience ensuring everything runs smoothly—from websites and scheduling to registration and logistics. His background in event management gives us a strong foundation to handle the behind-the-scenes infrastructure needed for an event like Pace.
- **NewmanBeatbox** has performed for hundreds of thousands of people worldwide as a beatboxer, public speaker, and in various other roles at live events. With a decade of experience in live productions, he understands what it takes to run a smooth event, engage audiences, and deliver a polished experience.

Together, our communities call us **The Super Newman Bros**. We began our speedrunning journey together in 2023, though our love for speedrunning dates back to the early 2010s. While we are intermediate runners individually, we've dedicated ourselves to learning and improving. In April 2024, we achieved the [world record in SM64 co-op](#) by pioneering a new routing system that no one else had tried.

TL;DR — We love Mario and have experience in the event space.

What We Need from the Community

We want to hear from you! This post is our way of introducing ourselves and offering our skills to help make this transition happen in the best way possible.

- If you've worked on Pace in the past and want to stay involved, we'd love to collaborate.
- If you have thoughts, concerns, or ideas, we're here to listen.

If the community believes we're the right people to help keep Pace alive, we're ready to get to work. Let's keep the conversation going and ensure these events have a future!

— **The Super Newman Bros.**
