

Synthesizer V - Voice Banks

List of all voices, prices, ownership status, etc

The ones I own are listed - I just didn't bother to write the price. This list was meant for personal use after all~

About ≈\$4,300 USD for EVERY Voice bank.

Not including taxes, dl-site discounts, agent fees, possibly having to send a photo of your passport to Alipay, and other miscellaneous factors. A good estimate for someone looking to go on a spending spree and being positively surprised when they still have money left over.
