

Hold Management Strategies

(Sept. 25, 2018)

Manual Management of Popular Titles

If you have limited dollars, but want to ensure that your patrons do not wait too long, or you wish to discover how many are waiting, you could do this manually whenever you had time and/or money.

1. **Login** to Overdrive - you can use your Advantage login or Marmot login, but we recommend the Advantage login if you are now an Advantage Plus library.
2. Navigate to **Insights > Reports**
3. Select **Current Waiting List**
4. Opt to **Run a New Report** and make sure **All branches** is selected

The screenshot shows a 'Report options' dialog box with the following fields and options:

- Branch:** A dropdown menu with 'All branches' selected and highlighted in yellow. Other visible options include Adams State University, Aspen School District, Basalt Public, Basalt Regional Library, District, Bud Werner Public Lib, Buena Vista Library, and Buena Vista Public Library.
- Website:** A dropdown menu with 'Standard and mobile' selected.
- Advantage titles only:** An unchecked checkbox.
- Buttons:** 'Update' and 'Cancel' buttons at the bottom right.

8. **After buying the cart, be sure to share these titles.** Since your patron is on hold, they will get it first.

Automatic Management of Popular Titles

If you don't want to manage holds manually, and you do have dollars to spend, consider setting up an automatic buying plan in your Advantage Login using these instructions:

https://help.marketplace.overdrive.com/customer/en/portal/articles/2669834-what-is-holds-manager-and-how-do-i-use-it?b_id=15212

This is how Bud Werner manages their holds and we HIGHLY recommend this process. We use a ratio of 3 to 1, but set it higher if you do not have a large budget.

We share these titles manually each week. Since your patrons are on hold for the title - your new copy will go to them first.

Expired Hold Management - Revised 03/13/2019

Due to the myriad of leasing options, titles expire within one to two years. Because it is cost prohibitive to automatically re-purchase titles, Marmot has opted to not weed them and instead re-purchase them only when a hold has been placed.

To capture all of the possible permutations for expired titles, 4 lists should be run according to your hold management policy schedule - **failure to do so may mean that your patron's hold will never be filled**. Bud Werner does this weekly.

Once a cart has been purchased, share with the collective immediately. Since your patrons are on hold for the title - your new copy will go to them first.

Here are the [official instructions on Overdrive](#) on how to set up these lists - you need to be logged into your Advantage account.

And here is Bud Werner's logic - the highlighted part is what gets changed for each search.
