

W3C Inclusion CG Mission Statement

- [Léonie's email about mission statement.](#)
- [TPAC meeting minutes](#)
- [Community Group page](#)

The mission of the W3C Inclusion CG is to increase the presence of under-represented groups at the W3C, and strengthen W3C culture by supporting diversity. To serve this mission, the CG will:

- provide a space to share experiences and information;
- produce best practices and use case documents regarding gathering data, reporting/feedback mechanisms, and practical ways to support each other;
- advise the W3M, AB, AC, and Positive Work Environment CG about potential enhancements to our working environment to better support inclusion.
