

Hello! My name is Plus+ (she/her). Thank you for choosing to buy an art from me. I hope to work productively together with you! I will do my best to make you satisfied with the result.

To exclude all possible misunderstandings, which could affect our cooperation, I have decided to make a small summary of how the work will be performed. Please do not forget to read it.

## *Workflow:*

### *1. Discussion of the topic and ideas.*

If you have your own ideas, please write them down as much descriptively as possible. Feel free to send your sketches/references.

You can also ask me for suggestions (e.g. what looks best, what atmosphere you want to create, etc.) - I try to find an individual solution for every job;

If you don't have any particular ideas, you can send me a description of your character and I'll come up with a composition, a pose, a background and so on by myself.

### *2. Discussion of price.*

After you let me know your wishes, I calculate the price.

You can let me know your budget limits, however, so that I can be guided by them when working out ideas.

### *3. Sketching.*

When the price is set and accepted by you, I start sketching. In that case, if the idea is completely mine, or if there are some points of contention (about the pose/angle), I draw a very rough sketch without any clear details, so that I can quickly make adjustments if necessary.

If I have discussed things before then, I draw a clean sketch.

### *4. Payment.*

Once the sketch is approved, you need to pay 100% of your order (if the order amount is more than 150\$, you can use payment plan - the amount and dates are negotiated separately at this stage).

5. *Line.*

6. *Shadow placement and base colour fill.*

7. *Render.*

If the art is complex and there are many plans/details, I can do each of them separately. In this case I will update the files in your folder, but will not notify you of each update.

When the render is complete, I will message you.

8. *Result (only in case of payment plan)*

If we have agreed with you about payment in parts and I have finished your order before the last payment has been done, then I will send you the artwork when it is ready, but it will be with a watermark. After the last payment is received, I will send the art without the watermark.

## *Job specifics:*

1. All files will be added to a folder on google drive where you will be given access via a link.

Once the order is completed, the folder will be available for 5 days. I will delete it afterwards, so be careful that you download all the necessary files!

2. Communicating via DA or messengers (discord/telegram) is not very convenient for me, so I would be extremely grateful if we could use email for further communication:

[plustime001@mail.ru](mailto:plustime001@mail.ru)

But of course it's not necessary if you don't want to use e-mails or prefer communicating in different way.

3. Sometimes there is a queue of orders, so I offer you to reserve your place for future (it costs 20\$ of the total cost)\*. If you want to take a slot, email me, we'll discuss your idea, I'll tell you the price and you can book your place.

\*For example, you order is 100\$, and you take reservation (20\$). Then when I draw the sketch and it's time for the main payment, you'll have to pay 80\$.

4. Refunds after payment/reservation of a place are not possible.

5. Deadline is usually a month but if you answer me in 2-3 days after I have sent sketch/line/base colour fill to you, deadline can be extend for 3-7 days.

6. I record the speedpaints of almost every art and post them on TikTok and YouTube. If you are against it, please notify me in advance.

7. If you do not want me to post your order on my social media, the cost of the order will increase by +20\$.

8. Commercial use - if the art comes in a commercial use format, the price for it will be 50% more than usual (That is, if you order an art for 200\$, you should add 50% of this price to it, so the total art will cost 300\$)

9. Number of free edits per stage:

Sketch - 5

Line - 3

Base colours - unlimited

Render - 3

All additional edits \$3 each.

I'm human too and can make mistakes, if I'm wrong I don't count it as "minus one free edit".

Also, I try to meet the customer's needs at all times, so something minor can be corrected for free, but please remember that each edit takes time and effort.

## *Price list*

PLAN\_KAPKAN:

<https://www.deviantart.com/plustime001/art/COMMISSION-EXTREME-BACKGROUND-3-SLOT-S-OPEN-955562025>

## ORDINARY COMMISSION:

# COMMISSIONS OPEN

price (+100% per extra character)

**Headshot – 55\$**  
**Half body – 85\$**  
**Full body – 110\$**
