

Lipids handout

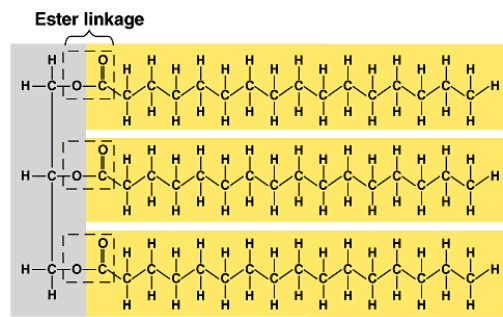

Lipids:

1. Triglycerides

Saturated fat

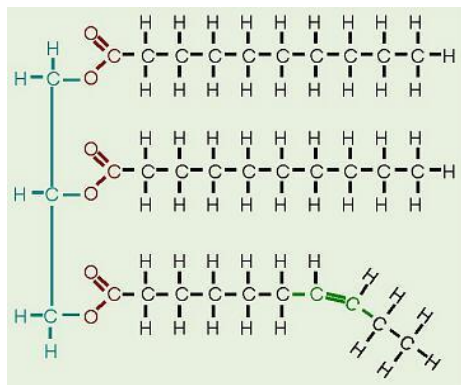

Glycerol
(a) Dehydration synthesis

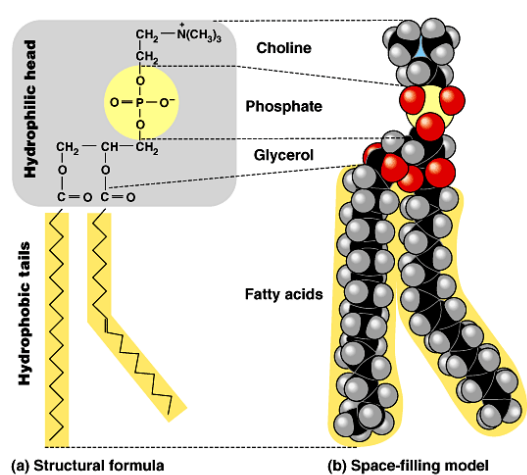

(b) Fat molecule (triacylglycerol)
Copyright © Pearson Education, Inc., publishing as Benjamin Cummings.

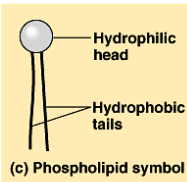

Unsaturated fat

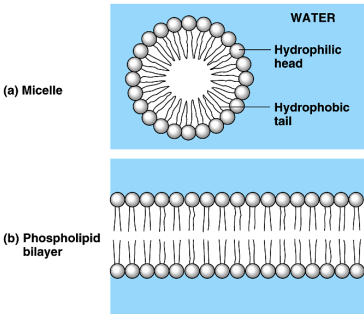

2. Phospholipids

(a) Structural formula (b) Space-filling model
Copyright © Pearson Education, Inc., publishing as Benjamin Cummings.

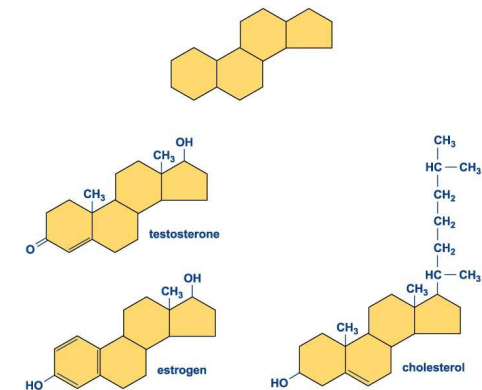

(c) Phospholipid symbol

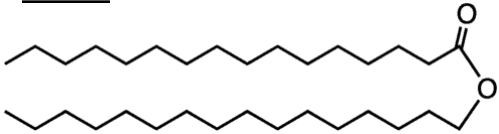

(a) Micelle (b) Phospholipid bilayer
Copyright © Pearson Education, Inc., publishing as Benjamin Cummings.

3. Steroids

4. Waxes

Nucleic Acids Handout
