## BENEFITS, FEATURES, ANGLE

### What's AI Coaches?

The first app that clones real humans into AI avatar bots.

AI Coaches lets you clone yourself or any expert into an AI avatar chatbot with customized knowledge, personality, & appearance that mentors clients, closes leads, and more 24-7 growing your business.

Plus, you can customize and rent out DFY AI coach avatars pre-trained in popular niches to small businesses to run an AI avatar automation agency business.

## How's It Different Than Other AI ChatBots & Apps?

AICoaches is far more than another GPT bot or automation tool.

The next revolution in AI is customization, and this is the only tool that lets you customize data training & knowledge, personality, coaching style, avatar character, & more.

This is the only app where you can have, for instance, an AI replica of you coaching clients in your coaching style, philosophy, and avatar - NOT a cold lifeless bot.

## Angles:

### Clone Anyone into an AI Avatar Chatbot to 30x Your Business:

- Imagine creating a clone of yourself that worked 24-7 to mentor customers, drive leads, sell products, and more. You'd 3x your business in just weeks! With AICoaches you can clone yourself or anyone else into an AI avatar chatbot with customized knowledge, looks, and personality. Use for mentoring, product support, lead generation, or just sell an AI-customized clone to a small business.

Imagine creating an 'Alex Hormozi' AI clone to ask marketing questions to all day, or a clone of a lead generation specialist to close prospects tirelessly. This goes far beyond just a ChatGPT bot. The next revolution in AI is customization, and you & your clients can take early advantage with no expertise needed..

### 6 Figure AI Coaching Business:

The coaching/consulting industry is now worth billions of dollars & you can run your own digital mentoring business without having any knowledge or expertise thanks to revolutionary, customized AI avatar bots.

You can clone yourself, any business owner, or an industry expert into an avatar chatbot that can mentor clients 24-7 inside a membership or live on a page.

Customize appearance, coaching style, personality, knowledge training, & more. Or, pick from lots of DFY AI avatar bots that are already trained to be expert coaches in popular niches.

Talk to them to create courses, let them mentor clients, or sell them to businesses that need an expert staff member educated in a specific way.

## Run a Customization 'AAA' (AI Automation Agency):

Small businesses are desperate for quality employees and ways to free up time. Now you can help them by creating AI avatar clones of their owner or employees that mentor clients, do support, generate leads, sell products, & more 24-7.

These AI avatar clones are custom-trained on specific knowledge & include the ability to modify looks & personality - FAR beyond a standard chat GPT bot.

Just one clone can sell for \$5000+ & up. You can even rent out DFY AI avatar bots that are ready in a click, trained on specific knowledge in popular business niches.

## 24-7 Customized AI Employees:

Get access to an entire team of employees who are trained experts and fully understand how your business works, growing it 24-7 passively. AI Coaches allows you to clone yourself or anyone else into an AI avatar chatbot with custom data training, looks, and personality.

These AI employees are more effective than standard GPT bots because they are trained on custom data & provide specific expertise in the way you want or an agency client wants.

## Features:
