

Do you know the Non-Rotating Apps on Samsung S22 Ultra

Here's a list of Android apps within the Utilities and Social Media categories that are typically known not to rotate to landscape mode:

Social Media Apps

1. **Facebook** - Primarily operates in portrait mode; videos may rotate.
2. **Instagram** - Designed for portrait mode, including stories and feeds.

Utilities Apps

1. **Google Authenticator** - Primarily functions in portrait mode.
2. **Authenticator Plus** - A popular third-party option, also portrait-only.
3. **Evernote** - The interface favors portrait orientation, especially for note-taking and navigation.

Note that app behaviors can vary based on device settings and updates, so it might be a good idea to test them with your Geyes keyboard for any changes over time.
