

THE LINK UP – PRIVACY POLICY

Effective Date: June 2026

The Link Up respects your privacy.

The Link Up is a multiplayer social party game designed for entertainment and social interaction.

Information We Collect

- Email addresses used for account login/authentication
- Basic gameplay data required for multiplayer functionality
- Device information for app performance and crash reporting

How Information Is Used

- To provide multiplayer gameplay
- To improve app performance and stability
- To manage authentication and user sessions

Third-Party Services

The Link Up uses Firebase Authentication and related Google Firebase services for secure login and multiplayer connectivity.

Data Sharing

We do not sell personal information to third parties.

User Content

Users may submit custom answers and responses during gameplay. Users are responsible for the content they share while using the app.

Security

Reasonable security measures are used to protect account information and gameplay services.
