

Title: A Chicken or the Egg Story: Assessing Causes of Post-Hurricane Building Loss

Date: 01/16/2025

Provider: Florida Section ASCE

Instructors: Cory R. Brett, P.E.; Eric K. Olson, P.E.

Hours: 1

Class Type: Face to Face

City: West Palm Beach

State: Florida

Description:

This presentation summarizes the effect of the hurricane forces (e.g. high winds, heavy rain, storm surge, waves, wind- and flood-borne debris, etc.), the forensic tools available for assessing building damage, and the engineering principles that can be used to assess the cause or causes of Hurricane-related structural damage and building loss.
