- Ran with Awfuk, Dog, Kalbruin, Noaa
 - Team met at the Dancing Crane, where Flatline made a few holes in the floor but also the best ground beef he possibly could. They were told that the Yakuza had stolen a jade dog from his superior, and he wanted it back. Pay was negotiated to be 12.3k.
 - It was agreed the team would meet at the warehouse the dog was in, where they socially infiltrated with Kal and Dog, while the rest of the team found a more brute force solution.
 - Turns out Yaks are Noaa's trigger...and Flatline's was people stuck in tiny boxes he could full auto with an AA-16. Four Yaks died horrible deaths.
 - In an attempt to find the Jade Dog, Flatline knocked out a lot of dog workers, while between Awfuk and Kalbruin, that actual item was found.
 - They all got out, and got their payday.
