### Other Zones of the Solar System

Our solar system includes two zones of planets: inner terrestrial planets and outer gas giant Jovian planets. However, there are 3 additional zones in our solar system that deserve our attention: the Asteroid Belt, the Kuiper Belt, and the Oort Cloud.

Use the following resources to compare and contrast these extra zones of our solar system.

- [What's the difference between an Asteroid and a Kuiper Belt Object?](#)
- [The Oort Cloud: Believe it or Not](#)
- [Celestial Bodies](#)
- [The Kuiper Belt and the Oort Cloud](#)

	Asteroid Belt	Kuiper Belt	Oort Cloud
<i>Where is it?</i>			
<i>What's in it?</i>			
<i>How big is it?</i>			
<i>How did it form?</i>			
<i>Is there anything special or interesting about it?</i>
