Privacy Policy

SwipeYours is a free, Open Source app, provided at no cost and is intended for use as-is with no warranty of any kind.

The developer collects no data other than what Google collects by default for Apps served from the Google Play store. Magstripe data that you input to the App will be transmitted over NFC to the POS (Point of Sale) or other receiving devices that you tap your phone with. (That is the whole purpose of the app.) If you don't want this, please do not install the app.
