### **Required Addons**

- [Fast Guild Invite](#) - FGI
- [Guild Roster Manager](#) - GRM
- [weizPVP](#) - Addon dedicated to one thing: World PVP - Enemy #'s
- [H.H.T.D](#) - (Healers have to die) This is a cruel truth that you're taught very early in the game.
- [DEADLY BOSS MODS](#) - Mods for raid and dungeon warnings. DBM aims to let you know what to do for something, not just show you a spell name.

**Please Join the raid group in order to practice Macros!**

**PLEASE BE ENCOURAGING OF ANYONE LEARNING!**

**STICK TOGETHER AS A UNIT AND SUPPORT EACH OTHER!**

### **In order to be a Warmode Officer:**

- You must be an effective recruiter
- You must be an effective PvP raid leader
- You must be a team player

**PvP is situational awareness.** This means knowing where you are needed on the battlefield and what to do once you are there to achieve victory: Every battle is different, every player is different and this means you must adapt on the fly.

- How many reinforcements are necessary.
- It is imperative to follow the leader's instructions.
- Deviation from instructions can threaten the entire operation and wipe your entire raid team.

**Do not argue on Discord or in raid channels.** Arguing amongst ourselves and not following the leaders instructions is not productive. Focusing on filling raid groups as fast as possible or killing the enemy. Ask questions! It's best to ask if you do not know. Taking initiative can be destructive in a group. We must work together and follow the plan to win the fight.

**Your priority is filling your raid groups!** If you have to die to make sure the raid group gets filled then do so.

**If you are being attacked - stop and take a deep breath.** Calm down, click invite, fill your groups and you will get a win! Zen warrior mode enabled!

**Please ask non priority questions after the battle ends.** It's important to keep coms clear for incoming calls. Try and use as few words as possible to address the issue. Use cardinal directions and locations to call targets.

#### IDEAL REPORTING FORMAT:

- # OF HORDE>GUILD>CARDINAL DIRECTION>LOCATION

#### GROUP LEADERSHIP

- **Group leaders have a filled gold crown on your raid screen (O).**
- **Assistants have an unfilled crown.**

#### RAID WARNINGS

Group leaders will send out raid warnings and recruitment macros. Assistants will help fill groups. Message group leaders via whisper if directions are not being followed or if there are questions. If you notice someone leading a RUIN group that is not part of our team in discord, please try and use it as an opportunity to recruit them!

- Please **do not send out raid warnings unless you are the leader** or the leader asks you to do so.
- **Please do not send out duplicate raid warnings!**

#### **PHASING How it Works:**

- Use Phasing macros with Archaos
  - **Macro to JOIN Archaos in his phase: /whisper Archaosrex-Tichondrius INVITE**

- **Macro to INVITE Archaos to your phase:**
  - Use the group finder to list groups for a phase: 111 222 333 444 etc.
  - Note: use dueling method to try and stick phase
- **Go over the group finder and how to use it.**
- Have officers form a raid to go over the /rw as if it were a real battle while in a raid group so that others may have a visual of how they should look.
- Groups leaders that don't use raid warnings create less effective groups. We cannot assume that everyone in your group hears discord when in reality, it's like 1-3 people in discord and 37 pugs. Clear, concise communication is effective and critical to success.
- Go over recruiting macros and why they are helpful.
- Macros to fill raid groups are limited to 255 characters.
- Please do not promote everyone to assist. It seems some are abusing this and it's causing problems. Please only give assist to those in discord-helping out. Verbally confirm who you have given assist to and what they can help you do. Make sure they respond before promoting.
- Reasons to be in all the **Communities**: (All Links Located in **#Communities**)
  - Recruit
  - Monitor chat
  - Advertise for discord
  - Pull for content you are running
  - Pull for your raid groups
- Must add all communities to the chat window. (Arrow at the top of Guild and Communities page-Click and add to general)
- Under Settings-Click Channels-and you can click and drag them to place them in order.
