

ILP Submission Checklist Purposes:

- It can be used as a checklist to guide the candidate and mentor through the sequence of each inquiry
- It is used as the rating sheet by the mentor who rates the candidate's work. The checklist indicates whether the candidate's work meets requirements or needs revision per the [Holistic Scoring Rubric](#). Work needing revision must be re-submitted until it meets requirements.
- It is a record of candidate competency in successfully completing the components for Induction.
- Together the checklists comprise the transportability document that is sent to other Induction programs or entities needing verification of a candidate's status regarding Induction program completion.
