My Small Crochet Business Intro

Thanks for visiting my crochet business intro!

Why did I start?

For an overall statement, my business is to help me, and my family financially. Meaning, paying for my own stuff and upgrading my supplies for me and my customers. This includes me making a little money, but also having fun doing my favorite hobby. I like doing things right. For me, and the customer. I first started out with bags in my business, upgrading my styles and preferences. And I learned to explore what to make and how to make them better.

What do I make currently? And when are orders available?

At the moment, I've been making amigurumi (crochet animals), hexagon sweaters, bags, trinkets, airpod cases, pouches, and maybe I could learn something for you. It benefits me and you. Orders are usually available... all the time. I don't get a lot of orders at once, they're usually spread out and I get them back to the customer once I'm done with the order.

Prices?

My prices are very reasonable. I price usually by time, style and size. Although some might say I underprice compared to other people, fortunately, these are the prices I decide that are fair to me and the customer. And I try to make my items as accessible as I can. If we compare between me and etsy sellers, my prices are under. For example, a scarf could be $65 dollars online. And mine would be $35-40.

What payment methods do I take?

I take cash and apple pay, but my dad helps with zelle if you have that.

Thanks for checkin' this out! And dm me on instagram (or my number if you have it) for an order.
