

Manifesto Of The People's Socialist Party

INTRODUCTION

The People's Socialist Party firmly believes in creating a society that prioritises economic progress and maintains a stance of military neutrality. Our vision is to establish a just and equitable society that fosters economic growth and promotes peace both within The Emerald Insurgency and within Orbis. We advocate for a socialist system that empowers the people, protects individual rights, and guarantees equal opportunities for all.

ECONOMIC ADVANCEMENT

Fair distribution of wealth - we believe in a society where wealth is distributed equitably, ensuring that no individual or group is left behind, we advocate for progressive taxation policies where people are only taxed at 5/5. We would also offer another option for those that wish to invest all they have into their nations and The Emerald Insurgency, this other option would see those on it at 100/100. Their only economic focus would be on constructing cities, further advancing the economic output of each nation and The Emerald Insurgency as a whole.

Manifesto Of The People's Socialist Party

This would give everyone a choice in how their economies are affected, we believe this embodies the very essence of socialism which is that everyone has a choice in their futures.

MILITARY NEUTRALITY

Peaceful coexistence - we firmly believe in resolving conflicts through peaceful means, diplomacy and dialogue. We reject the notion of military aggression and intervention as a means to achieve the interests of The Emerald Insurgency The People's Socialist Party advocates for a foreign policy that prioritises peaceful coexistence, cooperation, and non-interference in the affairs of other alliances.

Disarmament and Arms Control - We advocate for substantial reductions in military spending and the redirection of resources towards furthering economic development and growth. We support international efforts to achieve disarmament and arms control, fostering an Orbis free from the threat of nuclear weapons and excessive militarisation.

Promoting Dialogue and Cooperation - we encourage open dialogue and cooperation with other alliances, fostering mutual understanding and economic partnerships. By promoting peaceful relations, we aim to build a community that values cooperation, respect and shared prosperity.

CONCLUSION

In simple terms, the People's Socialist Party envisions a society that prioritises economic progress and peace. We advocate for the distribution of wealth to boost those with the weakest economies in The Emerald Insurgency. Simultaneously, we strive for military neutrality, promoting peaceful coexistence, disarmament and international cooperation. Join us in our pursuit of a just and equitable society, where economic advancement and military neutrality go hand in hand, ensuring a brighter future for all.
