This document is not meant to harass TheOfficialLetterE and it's just made to inform people about his actions and such, this will only cover the actions TheOfficialLetterE has done against the ORC.

TheOfficialLetterE would be shortened to E sometimes in the document

If the images appear low quality, I'm sorry for that. Desktop is better at viewing docs images i guess lol

WHO IS THE OFFICIAL LETTERE??

TheOfficialLetterE is a "youtuber" who has been for past years harassing the OldRobloxCommunity(ORC) people, as well as spreading misinformation, mass reporting and trying to take down revivals just because he didn't get an access key. And he's in the alphabet.(no way) E exploited as well(cool)

Why is he even doing this?

In the beginning E wanted Finobe key but he realized he needed an invite key for that, instead of asking or waiting for invite keys to drop off or some sort of application to be opened, he started his hating mob against ORC.

Alt account: <https://www.youtube.com/@33Alexa33>

His description:

Descripción

i will not stop until every roblox revival becomes public and removes invite keys forever

Rioting people against Roblox Revivals to get it taken down.

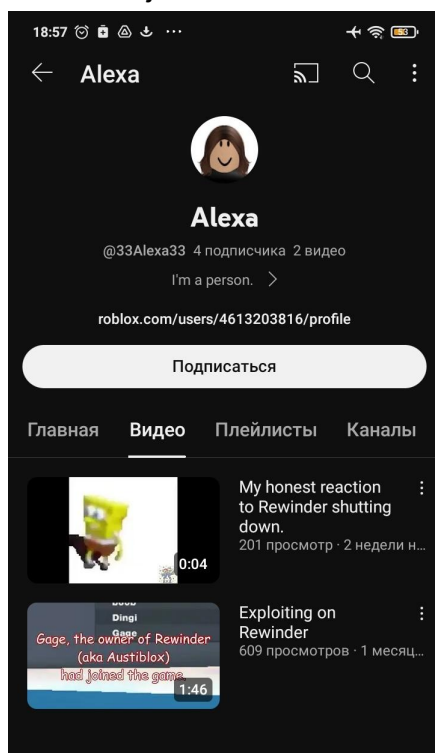

Unsurprisingly, we find out that he has been **harassing** MEMBERS of the ORC.

As well as intentionally joining in the platforms just to harass some members or "raid servers"

Also There was an account he made called, Alexa or whatever then the account it now deleted which

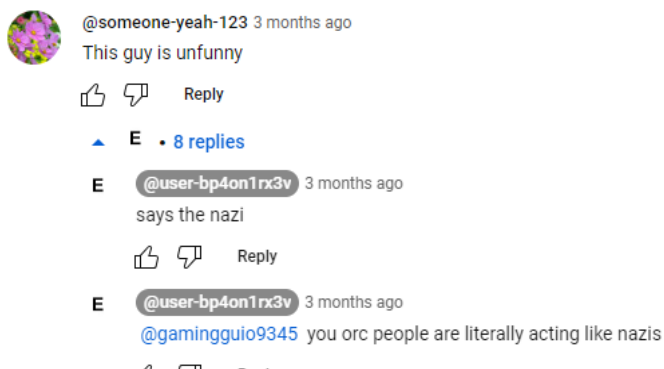

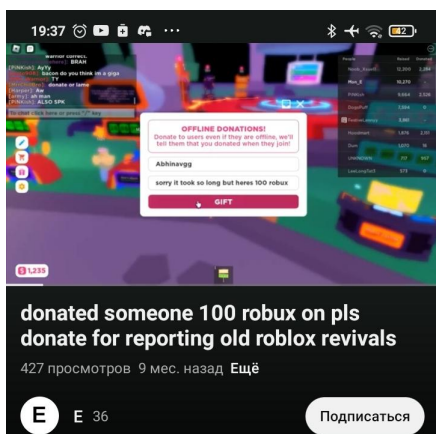

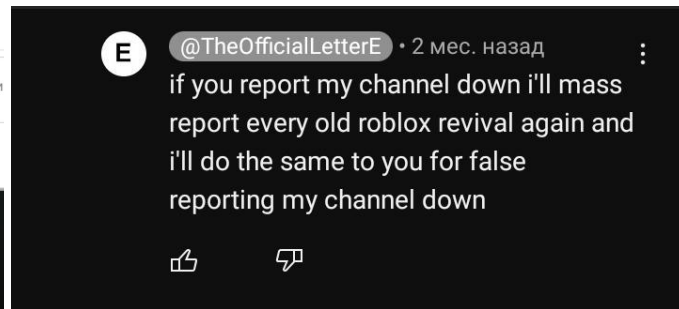

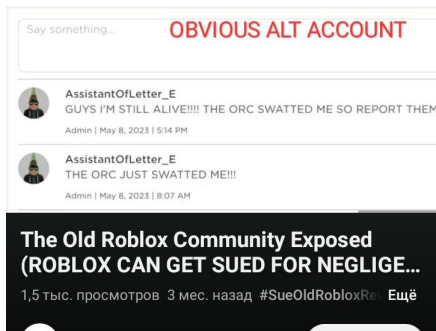

as TheletterE alt the only video posted. Reporting Old Roblox Revivals To Roblox

TheletterE joined a old roblox revival (real dumb) Called Kapish to purposefully exploit in it

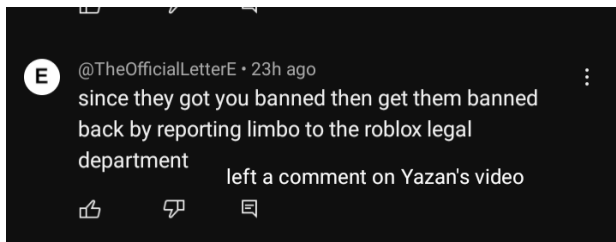

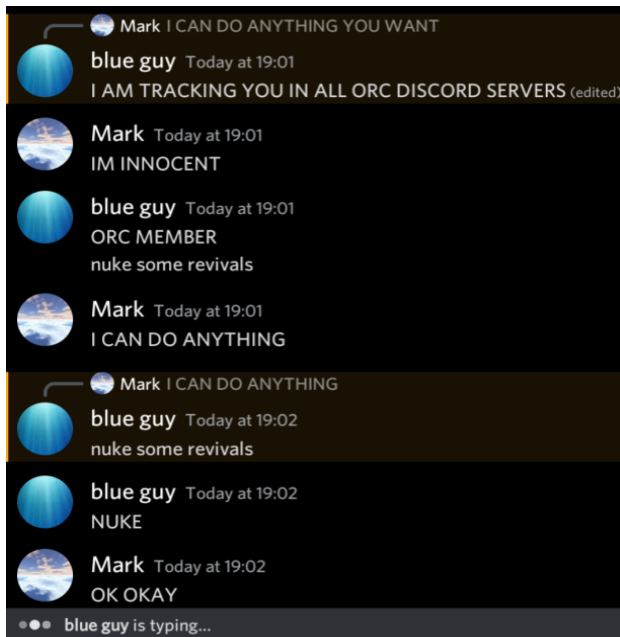

on his alt account he exploited on rewinder,after he did that he tried to join Limbo then got banned almost immediately due to being known for exploiting and lying about revivals as well as manipulating people into harassing revivals as well as threatening them

The proof required will be at the next page

(E is accusing the old roblox community to be nazi's)

E also has a discord alt called "blue guy" and he also harasses people on that account too:

Do I even need to say anything the title alone explains that he is tricking people into doing reporting roblox revivals + telling people to nuke revivals

CONCLUSION

E manipulates people into reporting roblox revivals and taking them down and he uses alternative accounts and fake evidence of swatting to trick people into taking down platforms he doesn't have access to.
