Information

Notice of Driveway Inspections

Inspecting and approving ALL driveways before snowplowing begins will be done this fall. Driveways must be clear of obstructions at least 15 feet on both sides of the centerline (this includes branches, over hanging tree branches, stumps, rocks etc.). The other "special provisions" are listed on the snowplow waiver form. Snow removal of private driveways will not begin until all the township roads and fire halls are cleaned of snow.
